"The President's Introduction for the 2020 Fiscal Year"

According to the original outlook, 2020 was supposed to be a successful and profitable year. It was, however, significantly affected by the global COVID-19 pandemic, which had a significant impact on the first quarter, when the production almost ceased to exist at the beginning of the year and subsequent to the relaunch, the growth was rather gradual. Due to a significant drop in sales and uncertainty, there was also a slight reduction in the number of staff during Q1 and other cost-saving measures were taken in order to respond to the uncertain sales prospects of the coming periods. Demand revived significantly in early autumn, and Q3 in particular was very strong in terms of sales, thus contributing to the fact that the decline in sales from the beginning of the year was almost offset. However, profitability was lower, especially due to externalities caused by the secondary effects of the pandemic. The prices of material inputs increased significantly, but the price of transport from Asia also grew sharply. However, with regard to the facts, 2020 can be considered a successful year because despite the objectively negative impacts, the Company achieved a profit.

Key Milestones and Projects in 2020:

Safety systems and functional components

In 2020, the production of the new Toyota Yaris model, the most significant project in terms of future profit, was launched. In addition to profit, new technologies we implemented as part of this project also play a vital role. This included a completely new technology for the two-component plastic injection: so-called 2K. This technology will be used for the production of components for new types of hoses used for filling fuel into tanks. Additionally, there have also been significant investments in new technologies with a substantially higher share of automation and robotics. The aim of these investments is to further increase competitiveness and production efficiency.

Weatherstrips (WS) – 2020 had two key tasks for the WS division. One of them was the start of production for the new Yaris, which succeeded despite the delay caused by the first wave of the pandemic. We had to overcome the almost two-month production outage before the start of the series, but the serial production was launched successfully, mainly thanks to the sophisticated method of training employees in manually complex operations. The second key task of the year was to plan production transfers back to the former German branch of TG Meteor, the sale of which was announced by the parent company in late 2019. The transfer of all related projects is planned by September 2021. In parallel with the transfers of production from TGCZ, a plan is being created on how to use the released production capacities in the future. There have also been significant investments in new technologies with a significantly higher role of automation and robotics – especially in the primary processes of rubber profile production. The aim of these investments is to further increase the competitiveness and the production efficiency.

In the fiscal year 2020, the Company reported total sales of safety systems of CZK 2.37 billion (a decrease of approx. 10.5% as compared to 2019).

With respect to functional components, products with total sales of CZK 0.42 billion were manufactured and sold (a decrease of 5.7% as compared to 2019).

The production of sealing components reached total sales of CZK 0.96 billion (a decrease of 14% as compared to 2019).

Total sales of LED components amounted to approximately CZK 0.1 million (a decrease of 77.6% as compared to 2019). The LED division only deals with possible customer complaints, but the actual sale of products has already been terminated.

The Company also sold production moulds to final customers in the amount of CZK 137.98 million in the 2020 fiscal year (in 2019, sales amounted to CZK 166.7 million).

At the end of the 2020 fiscal year, the number of employees was 1,028, which denotes a decrease of 166 people. This is primarily due to the increased productivity and a change of the product portfolio. During 2020, the Company continued to work closely with the trade union organisation OS Kovo. Positive communication and understanding were maintained by regular meetings and confirmed when the collective negotiations of conditions for 2021 resulted in an agreement.

The Company also undertakes maximum efforts to minimise the impacts of its activities on the environment. Priorities in this area include emissions released to the atmosphere, and the emissions of all measured pollutants were maintained at last year's levels despite the increase in production. Other priorities include waste management and recycling; in this area, a solution was found once again to recycle or utilise 100 percent of waste. We are also focusing more intensely on CO2 reduction, when we committed ourselves to meeting the Group's global goals. Gradually, decisions will be taken to bring the TGCZ closer to reducing CO2 by 30% by the end of 2030.

The Company continues to pursue its goal of becoming Toyoda Gosei's most efficient production unit in Europe.

The Company has no internal development unit.

The Company has no branch or another part of the business abroad, ie outside the Czech Republic.

The Company holds no treasury shares, interim certificates or equity investments, or treasury shares, interim certificates or equity investments of the controlling entity.

No events occurred subsequent to the balance sheet date that would have a material impact on the financial statements.

2. BASIS OF ACCOUNTING AND GENERAL ACCOUNTING PRINCIPLES

The Company's accounting books and records are maintained and the financial statements were prepared in accordance with Accounting Act 563/1991 Coll., as amended; Regulation 500/2002 Coll. which provides implementation guidance on certain provisions of the Accounting Act for reporting entities that are businesses maintaining double-entry accounting records, as amended; and Czech Accounting Standards for Businesses, as amended.

The accounting records are maintained in compliance with general accounting principles, specifically the historical cost valuation basis, the accruals principle, the prudence concept and the going concern assumption.

These financial statements are presented in thousands of Czech crowns ("CZK").

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

3.1. Tangible Fixed Assets

Tangible fixed assets include assets with an estimated useful life greater than one year and an acquisition cost greater than CZK 5 thousand on an individual basis.

Purchased tangible fixed assets are stated at cost less accumulated depreciation and any recognised impairment losses.

Tangible fixed assets developed internally are valued at direct costs, incidental costs directly attributable to the internal production of assets (production overheads), or alternatively incidental costs of an administrative character if the production period of the assets exceeds one accounting period.

The following tangible fixed assets are stated at replacement cost: tangible fixed assets acquired through donation, tangible fixed assets acquired without consideration on the basis of a contract to purchase a leased asset (accounted for by a corresponding entry in the relevant accumulated depreciation account), fixed assets recently entered in the accounting records (accounted for by a corresponding entry in the relevant accumulated depreciation account), and an investment of tangible fixed assets. The replacement cost is determined based on an expert valuation report prepared by a certified appraiser.

The cost of fixed asset improvements exceeding CZK 80 thousand (CZK 40 thousand until 31 December 2020) for the period increases the acquisition cost of the related tangible fixed asset.

Depreciation is charged so as to write off the cost of tangible fixed assets, other than land and assets under construction, over their estimated useful lives, using the straight line method, on the following basis:

| | Number of years |
|---|-----------------|
| Administrative buildings | 50 |
| Industrial buildings and halls | 30 |
| Infrastructure networks | 20 |
| Air-conditioning, EPS, conveyors, etc. | 12 |
| Machinery for the production of weatherstrips | 10 |
| Machinery for the production of security systems and functional | 8 |
| components | |
| Other machines and equipment | 6 |
| Other furniture and fixtures | 6 |
| Servers, computers and peripheral devices | 4 |
| Transportation containers | 4 |
| Measurement and inspection devices, various instruments and tools | 4 |
| Moulds | 2 |
| Assets between CZK 5 thousand and CZK 40 thousand | 2 |

Assets held under finance leases are depreciated by the lessor.

The gain or loss arising on the disposal or retirement of an asset is determined as the difference between the sales proceeds and the net book value of the asset at the sale date and is recognised through the profit and loss account.

Provisioning

Provisions against tangible fixed assets are created based on the results of inventory taking or, if relevant, supporting documents from technical segments. The Company regularly assesses all indicators that might cause asset impairment and require relevant adjustments in the financial statements.

3.2. Intangible Fixed Assets

Intangible fixed assets include assets with an estimated useful life greater than one year and an acquisition cost greater than CZK 60 thousand on an individual basis.

Intangible fixed assets also comprise software or valuable rights. Software and valuable rights generated internally for the Company's internal needs are not capitalised. Internally generated intangible assets are stated at the lower of internal production costs and replacement cost.

Purchased intangible fixed assets are stated at cost less accumulated amortisation.

The cost of fixed asset improvements exceeding CZK 60 thousand for the period increases the acquisition cost of the related intangible fixed asset.

Amortisation of intangible fixed assets is recorded on a straight line basis over their estimated useful lives as follows:

| | Number of years |
|-----------------|-----------------|
| Software | 6 |
| Valuable rights | 5 |

Provisioning

The Company creates provisions against intangible fixed assets based on the results of inventory taking.

3.3. Inventory

The Company measures the inventory using standard prices determined for the particular period.

Internally developed inventory – internally developed semi-finished goods and finished products – are valued at the calculated costs, which primarily consist of the direct costs of production (direct material, direct wages, other direct costs) and the portion of indirect costs relating to production. Financial expenses relating to the use of external funding can be reported as part of the cost of producing the inventory solely if they relate to the period of their production.

Provisioning

Inventories are provisioned as follows:

The balance of final products or goods in stock from finished projects for which
no other use is anticipated (in the amount of 100% according to the underlying
documents of the production administrative),

- The balance of final products or goods in stock from finished projects for which other use is anticipated (six years after the termination of the project in the amount of 30%, nine years after 60% and twelve years after 90%);
- The amount of final products or goods in stock for items, the standard cost of which is higher than the selling price, in the amount of the difference increased by the estimate of expenses relating to their sales;
- The amount of moulds intended for sale, the acquisition cost of which is higher than the selling price, in the amount of the difference; and
- Inventories older than six months or one year which will, however, be used to produce spare parts when the project is completed are not provided for.

3.4. Receivables

Upon origination, receivables are stated at their nominal value as subsequently reduced by appropriate provisions for bad amounts. Provisions are also created against unbilled supplies based on a self-billing contract with the customer, ie against items that were not included by the customer in its billing. Provisions against receivables are recognised if doubts exist as to their recoverability.

Provisioning

Based on an analysis of the maturity of receivables, the Company creates a 50 % provision against receivables past due between 180 to 365 days, while receivables past due for more than 365 days are provisioned in full. Provisions against intercompany receivables are only created in exceptional situations. In determining the provisioning charges, the Company also refers to the status of court proceedings, the financial health of the debtor, opinions from legal counsel, etc.

3.5. Trade Payables

Trade payables are stated at their nominal value.

3.6. Loans

Loans are stated at their nominal value.

The portion of long-term loans maturing within one year from the balance sheet date is included in short-term loans.

Interest is included in the profit or loss for the period.

All borrowing costs are recorded to the profit and loss account in the period in which they are incurred.

3.7. Reserves

Reserves are intended to cover future risks or expenditure, the nature of which is clearly defined and which are likely to be incurred, but which are uncertain as to the amount or the date on which they will be utilised.

The Company recognises reserves for warranties, where it undertakes to participate in covering the costs incurred on delivering faulty components or addressing complaints made during the warranty period. The calculation is based on the monitoring of the development of defects reported by customers which is conducted by the Quality Control Department and the aggregate production of the reporting period. The maximum warranty repair period is five years after the relevant component is delivered to a customer. For that period, the Company maintains the reserves. After five years, the previously maintained and undrawn reserve is released.

The Company also recognises a non-tax deductible reserve for outstanding vacation days on a monthly basis by reference to the proportional part of the total entitlement to the number of vacation days and the average assessment bases. Furthermore, the Company accounts for reserves for repairs of tangible fixed assets, for contingent liabilities arising from legal disputes or for employee benefits.

In the year ended 31 March 2013, the Company started creating accounting reserves for employee benefits as a result of the current employment policy and the number and structure of the Company's employees.

3.8. Foreign Currency Translations

Transactions denominated in foreign currencies during the year are translated using the daily exchange rate of the Czech National Bank.

At the balance sheet date, financial assets, short-term receivables and payables denominated in a foreign currency are translated using the effective exchange rate promulgated by the Czech National Bank as of that date. Any resulting foreign exchange rate gains and losses are recorded as the current year's financial expenses or revenues as appropriate.

3.9. Finance Leases

A finance lease is the acquisition of a tangible fixed asset such that, over or after the contractual lease term, ownership title to the asset transfers from the lessor to the lessee; pending the transfer of title, the lessee makes lease payments to the lessor for the asset that are charged to expenses.

If a finance lease contains an initial lump-sum payment, the lump-sum payment is accrued as an asset and released as an expense over the life of the lease.

Leasehold improvements are depreciated over the lease term. Following the transfer of ownership title of the leased asset to the lessee, the cost of improvements is added to the value of acquired assets and the depreciation of this increased amount continues.

3.10. Operating Leases

Operating leases represent a short-term or long-term lease when the lessee returns the leased asset to the lessor once the lease expires. No contractual claim exists regarding the potential transfer of the leased asset to the lessee's possession.

TGCZ holds assets under operating leases. Related costs are charged to operating expenses under 'Services' based on invoices received from the individual lessors. Payables are recorded as trade payables and divided into short-term and long-term payables.

3.11. Taxation

3.11.1. Depreciation of Fixed Assets for Tax Purposes

Depreciation of fixed assets is calculated using the straight line method for tax purposes.

3.11.2. Current Tax Payable

The tax currently payable is based on taxable profit for the reporting period. Taxable profit differs from net profit as reported in the profit and loss account because it excludes items of income or expense that are taxable or deductible in other periods and it further excludes items that are never taxable or deductible. The Company's liability for current tax is calculated using the tax rates that have been enacted by the balance sheet date.

3.11.3. Deferred Tax

Deferred tax is accounted for using the balance sheet liability method.

Under the liability method, deferred tax is calculated at the income tax rate that is expected to apply in the period when the tax liability is settled or the asset realised.

The balance sheet liability method focuses on temporary differences which are differences between the tax base of an asset or liability and its carrying amount in the balance sheet. The tax base of an asset or liability is the amount that will be deductible for tax purposes in the future.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the asset to be recovered.

Deferred tax is charged or credited to the profit and loss account, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

Deferred tax assets and liabilities are offset and reported on an aggregate net basis in the balance sheet, except when partial tax assets cannot be offset against partial tax liabilities.

3.12. Government Grants

Grants received to offset costs are recognised as other operating and financial income over the period necessary to match them with the related costs. Grants received to acquire tangible and intangible fixed assets and technical improvements and grants towards interest expenses added to the cost are deducted in reporting their cost or internal cost. Grants received for the creation of jobs are posted to income when the Company reaches the required number of employees.

3.13. Revenue Recognition

Revenues are recognised in line with the delivery terms concluded with the customer, i.e. when goods are delivered and accepted by the customer, and when goods are shipped out of stock and title has passed to the customer. Revenues are reported net of discounts and VAT.

Revenues from services are recognised when services are rendered and are reported net of discounts and VAT.

3.14. Use of Estimates

The presentation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the balance sheet date and the reported amounts of revenues and expenses during the reporting period. Management of the Company believes that the estimates and assumptions used will not significantly differ from the actual results and outcomes in the following reporting periods.

3.15. Year-on-Year Changes in Valuation, Depreciation or Accounting Policies

No year-on-year change in the accounting policy was determined.

3.16. Cash Flow Statement

The cash flow statement is prepared using the indirect method. Cash equivalents include current liquid assets easily convertible into cash in an amount agreed in advance. Cash and cash equivalents can be analysed as follows:

| | (CZK thousand | | |
|----------------------------------|---------------|---------------|--|
| | 31 March 2021 | 31 March 2020 | |
| Cash on hand and cash in transit | 153 | 343 | |
| Cash at bank | 130 335 | 151 567 | |
| Total cash and cash equivalents | 130 488 | 151 910 | |
| | | | |

Cash flows from operating, investment and financial activities presented in the cash flow statement are not offset. The change in the balance of received loans is reported in line C.1. 'Change in payables from financing' of the cash flow statement.

In 2020, the Company created a provision against tangible movable assets in the amount of CZK 14,240 thousand. In 2019, CZK 851 thousand was released. This provision was created against the machinery of the Toyota Yaris project terminated this year.

The balance sheet value of the provision against tangible movable assets increased to CZK 19,773 thousand as of 31 March 2021 (compared to CZK 5,533 thousand as of 31 March 2020).

In 2020, major additions to assets primarily include new technology of two-component plastic injection for new types of hoses for filling fuel into the tank. In addition, there were investments in automation and robotics — particularly in the area of primary processes of rubber profile production.

In 2020 and 2019, the Company acquired tangible assets which were directly expensed in the amounts of CZK 1,351 thousand and CZK 2,148 thousand, respectively. These assets comprise low value tangible assets consisting of other movable assets and sets of movable assets with an estimated useful life exceeding one year. These assets are excluded from fixed assets and are expensed on one-off basis.

In 2020, the main disposal of tangible assets includes unused obsolete machinery and equipment due to a modernisation of assembly lines based on project terminations. In addition, other disposals include obsolete storage trolleys and IT equipment.

Interest was not capitalised as part of the cost of tangible fixed assets.

The estimated payable for inventory includes amounts of received material and goods for which the Company had not received invoices as of 31 March 2021.

4.6. Equity

4.6.1. Changes in Equity

Share Capital

In 2020, there were no changes in the share capital. The share capital amounts to CZK 970,000 thousand as of 31 March 2021.

Reserve Fund

In 2020, the Company recognised no reserve fund based on the decision of the General Meeting.

The aggregate amount of the reserve fund was CZK 51,438 thousand as of 31 March 2021.

Retained Earnings and Accumulated Losses

The profit for 2019 of CZK 49,330 thousand was approved by the General Meeting in 2020. According to the resolution of the General Meeting, 50% of the profit was paid out as a dividend to the controlling entities and 50% was transferred to accumulated profits brought forward.

The accounting profit for 2020 will probably be settled as follows: 75% of the profit will paid out as a dividend to controlling entities and the remaining 25% will be transferred to accumulated profits brought forward.

4.7. Reserves

6. OFF BALANCE SHEET COMMITMENTS

Guarantees Received and Provided

As of 31 March 2021, the Company records a due payment bank guarantee in the aggregate amount of CZK 10,000 thousand from MUFG Bank (Europe) NV, organisational branch in the Czech Republic. Based on a letter of guarantee, the Company is liable for the payment of all debt incurred during customs transactions.

Legal Disputes

As of 31 March 2021, the Company was involved in no legal dispute the outcome of which would significantly impact the Company.

Environmental Liabilities

An environmental audit of the Company on the basis of the ISO 14001 certificate was completed as of 31 March 2021. Pursuant to the outcome of the audit, the Company's management believes that the Company is not exposed to any contingent liabilities pertaining to damage caused by prior activities or liabilities related to the prevention of potential future damage.

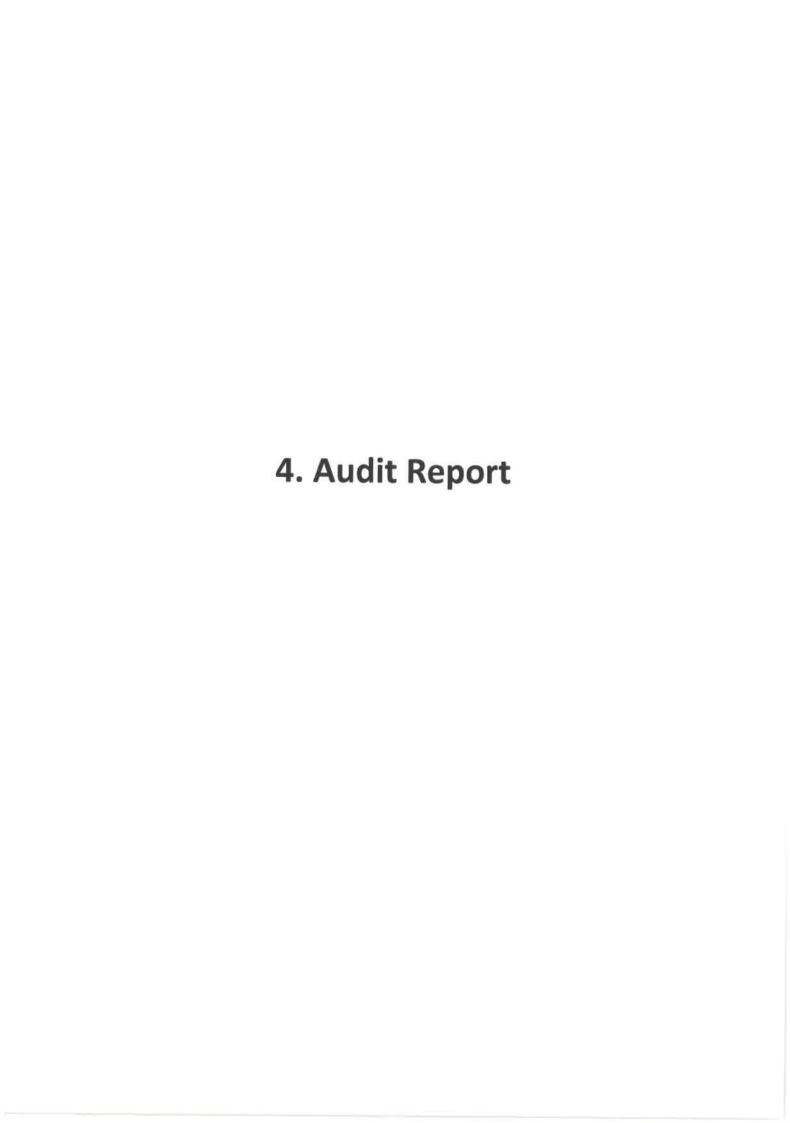

7. OTHER SIGNIFICANT EVENTS

Due to the spread of the COVID-19 pandemic and the global interconnection of the supply chain, the Company's operation is also affected, as well as the entire Czech and global economy. The Company takes preventive measures and all steps to mitigate economic impacts on the Company. However, the overall quantification of the impact cannot be fully anticipated at this time.

Despite the uncertainties regarding the spread of the COVID-19 pandemic, based on an assessment of all currently available information, the Company believes that the going concern assumption is not compromised and therefore the use of this assumption for the preparation of the financial statements is appropriate and there is currently no significant uncertainty regarding this assumption.

8. POST BALANCE SHEET EVENTS

No events occurred subsequent to the balance sheet date that would have a significant impact on the financial statements. The impacts of the global pandemic on the Company are disclosed in Note 7.

INDEPENDENT AUDITOR'S REPORT

To the Partners of Toyoda Gosei Czech, s.r.o.

Having its registered office at: Klášterec nad Ohří, Průmyslová 2, District of Chomutov, 43151

Opinion

We have audited the accompanying financial statements of Toyoda Gosei Czech, s.r.o. (hereinafter also the "Company") prepared on the basis of accounting regulations applicable in the Czech Republic, which comprise the balance sheet as of 31 March 2021, and the profit and loss account, statement of changes in equity and cash flow statement for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Toyoda Gosei Czech, s.r.o. as of 31 March 2021, and of its financial performance and its cash flows for the year then ended in accordance with accounting regulations applicable in the Czech Republic.

Basis for Opinion

We conducted our audit in accordance with the Act on Auditors and Auditing Standards of the Chamber of Auditors of the Czech Republic, which are International Standards on Auditing (ISAs), as amended by the related application guidelines. Our responsibilities under this law and regulation are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Act on Auditors and the Code of Ethics adopted by the Chamber of Auditors of the Czech Republic and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information in the Annual Report

In compliance with Section 2(b) of the Act on Auditors, the other information comprises the information included in the Annual Report other than the financial statements and auditor's report thereon. The Statutory Executives are responsible for the other information.

Our opinion on the financial statements does not cover the other information. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. In addition, we assess whether the other information has been prepared, in all material respects, in accordance with applicable law or regulation, in particular, whether the other information complies with law or regulation in terms of formal requirements and procedure for preparing the other information in the context of materiality, i.e. whether any non-compliance with these requirements could influence judgments made on the basis of the other information.

Based on the procedures performed, to the extent we are able to assess it, we report that:

- The other information describing the facts that are also presented in the financial statements is, in all material respects, consistent with the financial statements; and
- The other information is prepared in compliance with applicable law or regulation.

In addition, our responsibility is to report, based on the knowledge and understanding of the Company obtained in the audit, on whether the other information contains any material misstatement of fact. Based on the procedures we have performed on the other information obtained, we have not identified any material misstatement of fact.

Responsibilities of the Company's Statutory Executives for the Financial Statements

The Statutory Executives are responsible for the preparation and fair presentation of the financial statements in accordance with accounting regulations applicable in the Czech Republic and for such internal control as the Statutory Executives determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Statutory Executives are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Statutory Executives either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the above law or regulation, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Statutory Executives.
- Conclude on the appropriateness of the Statutory Executives' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and
 whether the financial statements represent the underlying transactions and events in a manner that achieves fair
 presentation.

We communicate with the Statutory Executives regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
